CNATRA INSTRUCTION 5442.8F

Subj: MAINTENANCE CONTRACTOR OPNAV XRAY REPORTING AND ENGINE TRANSACTION REPORTING PROCEDURES

Ref: (a) CNAFINST 4790.2C
(b) NAVAIRINST 13700.15F

1. Purpose. To publish procedures for contractor maintenance activities ('O', 'I' and 'D' Level) in their reporting of Office of the Chief of Naval Operations (OPNAV) XRAY reports in accordance with (IAW) reference (a), and Engine Transaction Reporting (ETR) IAW reference (b).

2. Cancellation. CNATRAINST 5442.8E

3. Background. The Aircraft Inventory Readiness Reporting System (AIRRS) and the Decision Knowledge Programming for Logistics Analysis and Technical Evaluation (DECKETR) allows for source data entry of XRAY and ETR information. This alleviates the requirement for naval message reporting for XRAY and ETR data. Chief of Naval Air Training detachments have computer access to these databases for the purpose of data input.

4. Action

a. Maintenance Contractor. XRAY reports shall be generated IAW reference (a) and ETR Reports will be generated IAW reference (b). Upon determination of requirement for an XRAY report, it shall be entered in the Optimized Organizational Maintenance Activity (OOMA) System. ETR's are to be entered directly in DECKETR.

5. Reports: The Quarterly Hours in Life Reporting is via AIRRS website, and the ETR via DECKETR through the DECKPLATE website.

S. B. STARKEY
Chief of Staff
