***U.S. Navy T-45C Goshawk crashes near NAS Kingsville; pilot safe***

By Chief of Naval Air Training Public Affairs Office

CORPUS CHRISTI – Today at approximately 12:00 p.m. CDT, a Navy T-45C Goshawk jet trainer aircraft assigned to Training Air Wing 2 at Naval Air Station Kingsville, Texas, crashed on approach to NAS Kingsville.

One instructor pilot was aboard and ejected from the aircraft. The pilot has been transported to Christus Spohn Hospital-Kleberg for further evaluation.

The aircraft impacted an empty field on Navy property just north of the airfield. NAS Kingsville Emergency Services and Kingsville Sheriff's Office responded to the scene. No civilians were harmed in this incident.

The pilot was conducting a routine training flight that originated at NAS Kingsville. The incident is under investigation.
