CNATRA STAFF INSTRUCTION 5530.2A

Subj: INTERNAL KEY CONTROL PROGRAM

Encl: (1) Key Issue Record
(2) Departmental Key Issue Record

1. Purpose. To publish procedures for key and lock controls program within the Chief of Naval Air Training (CNATRA) and to establish a strict internal key control program.

2. Scope. This instruction applies to all personnel within CNATRA. Included within this program are all keys, locks, padlocks and locking devices used to protect or secure government facilities, assets and supplies within CNATRA. Not included are: keys, locks, and padlocks for convenience, privacy, administrative and/or personal use.

3. Cancellation. CNATRAINST 5530.2.

4. Key Custodians. A Key Control Officer (KCO) and Alternate Key Control Officer will be designated in writing. A Departmental Key Custodian (DKC) for each department, who are responsible to the KCO for all keys issued and controlled within their department, will be identified.

a. The KCO will use enclosure (1) to assign all keys to the DKCs. The DKC will sign enclosure (1) to acknowledge receipt of all keys, locks and padlocks. Requests for additional key or locks will be in writing, from the DKC to the KCO. Requests will include the key series, quantity and sequence numbers of keys required and location of door operated by requested keys (or location where door is to be installed or exchanged).

b. The DKC will use enclosure (2) to issue keys to all department personnel requiring access to departmental spaces. Keys will only be issued to personnel based on a validated requirement.

5. Key Inventory. All keys will be inventoried at least every 6 months by the DKC and annually by the DKC and KCO. All inventories will be recorded on enclosure (2). A memorandum will be distributed announcing the inventory date(s) and location for personnel issued a key. Key holders will report to the DKC with their assigned key(s) on the date(s) and time at the location specified. During the inventory, key holders will sign for all keys they retain for the next quarter.

6. Accountability. A continuous chain of accountability is required at all times. At no time will a key holder lend out, share or give their assigned key(s) to any other person except the DKC or the Security Officer (insuring a written record of receipt is completed).

a. Extended TAD or Leave. Key holders who will be TAD or on leave for an extended period exceeding ten days or during a scheduled inventory, will return their key(s) to the DKC to be reissued when they return. If additional personnel need access to the spaces during this period, the DKC will issue the appropriate key to the approved personnel.

b. Temporary Issue Keys. Keys required for maintenance workers, janitorial personnel or emergencies are maintained by the Duty Watch Desk in the Duty Office and may be issued when required by documenting the key(s) issue and return. This documentation may be recorded on the key control register (enclosure (1)) or a logbook entry to include the description of lock (reason); name, rate and signature of recipient; date/time of key return and initials or signature of personnel receiving the returned key. Keys for the stairwell doors can be checked out for the weekend(s)/after hours by contacting the KCO 24 hours prior.
