

TW-5 Student/IUT Exit Surveys

TW-5 Exit Surveys

Please take some time to provide your constructive comments to the following surveys. The feedback that you provide will be routed to the appropriate departments within your command and TRAWING Five. There is no requirement to place your name on any of these surveys. However, some comments may require a command representative to contact you to fully address a concern. If you are willing to accept any necessary follow-up, a name will be necessary.

After completing your Squadron and Academic/Flight Support surveys for your respective syllabus, all SMAs are to also take the CNATRA student exit survey.
