Officer in Charge, Helicopter Instructor Training Unit

Subj: READ AND INITIAL 16-02: DAILY INSPECTION EXTENSION GUIDANCE

Ref: (a) CNATRANOTE 13034

1. **Effective:** Immediately.
2. **Expiration:** Until Further Notice.
3. **Purpose.** To clarify guidance for extending the Daily Inspection during Cross-Country or PNS operations.
3. **Guidance.** CTW-5 delegates the authority for Daily Inspection extension for aircraft that have not begun their RTB mission within 72 hours to the Commanding Officer, Instructor Training Unit Officers in Charge, or Detachment Officer in Charge of the aircraft, with the following limitations outlined in reference (b):
 - a. The Pilot in Command must request the extension based on his own risk assessment and may not be directed to extend the daily inspection beyond 72 hours.
 - b. Prior to approval, the pilot must consult with contract logistics support maintenance to ensure the aircraft can go an additional 24 hours without any required maintenance such as scheduled inspections, high time component changes, or any other maintenance actions.
 - c. Without exception, aircraft must LAND within 96 hours of the Daily Inspection.
 - d. The PIC must conduct a NATOPS pilot inspection, ensuring servicing requirement are accomplished.
 - e. Although training may be completed, this extension is explicitly for RTB purposes. Multiple events may only be completed if multiple legs are required to RTB.
