

## *Command Philosophy*

VT-4 is an all-inclusive, professional military organization on the cutting edge of Naval Flight Officer training. Our mission is to effectively and efficiently train the next generation of “Big Wing” Naval Flight Officer **WARFIGHTERS**.

**Be competent and competitive:** It pays to be a winner! You can do the best you can and still lift your peers up. Teamwork and competition are not mutually exclusive when all share goals and core values.

**Be fair:** to yourself and others. This is an inclusive work environment where all are invited and all are welcomed as they are. Treat all others, and yourself, with the respect and dignity.

**Lead!** Be proactive and assertive in the face of challenge. Offer sound solutions along with the problem at hand. Remember that it is not all about work. Be the example in balance, our students deserve to see we can still have responsible fun while working hard.
