

## FORM STUDENTS

1. T-6A models are available for check-out at the SDO desk. Please ensure to return the models after your brief!
2. An example of the briefing board can be found below and on the VT-10 website <https://www.cnatra.navy.mil/tw6/vt10/training.asp>
3. Keep handwriting legible, use all capital letters, and use a straight edge to keep the board neat and in order. Ensure the board is clean and clear of smudge marks
4. Relevant conduct information for the board should be a visual aid for your brief. Examples include an instrument route, working area, MTR. It should enable you to deliver a solid brief
5. Aside from the event number and Tac Callsigns, any information already on your KBC should not go on the whiteboard (times, crews, aircraft side numbers, frequencies, etc). Questions of the day should not go on the white board
6. If you choose to draw arrows for Lead and Wing use blue and green color markers to denote Lead and Wing, respectively.
7. The mission objective is the overarching goal of the event. You can find the mission objective on the form briefing guide for your specific event
8. The training objectives may be thought of as enabling the mission objective. They can be specific maneuvers and procedures or more general. You can find the training objectives on the form briefing guide for your specific event
9. After your brief, please clean up after yourselves and return the T-6A models. Keep the briefing room tidy and ready for the following brief.

### White Board Examples
